Readable text formatting also matters. Proper paragraph spacing, bullet points, and consistent typography make PDFs easier for both readers and search engines to process.

Internal and external linking in PDFs

Links inside PDFs are crawlable and can pass value similarly to links on web pages. Including internal links to relevant sections and external links to authoritative sources enhances the credibility of *Electronic Instrumentation And Measurement By Rajendra Prasad*.

Linking PDFs from relevant web pages also improves their discoverability. When PDFs are well-integrated into a
