The game allows users to create highly detailed characters, environments, and scenes, often supplemented by community-generated mods and cards that expand its visual and functional scope.

What Are Cards in Honey Select 2?

Cards, often referred to as "character cards" or "scene cards," are assets that define specific character

appearances, outfit combinations, accessories, or scene setups. They are typically in formats such as `.png`, `.jpg`, or proprietary formats used within the game, and they serve as templates or presets that players can load to quickly change characters' looks or settings. Custom cards enable users to diversify their gameplay experience, access unique characters, or replicate specific aesthetics.

The Importance of Correct Installation
