## **Key Components of a Strategic Management Case Study**

A comprehensive case study typically includes several core elements that collectively provide a holistic

view of the organization's strategic landscape:

## **1. Background and Context**

## **3. Internal Environment Analysis**

This involves assessing the organization's strengths and weaknesses through resource-based views (RBV), value chain analysis, and core competencies. Key areas include organizational structure, financial health, human resources, and innovation capabilities.

## **4. Strategic Issues and Challenges**

Identifying the primary strategic problems or opportunities faced by the organization, such as declining market share, technological disruption, or entry into new markets.
