Early Start Denver Model curriculum checklist for young children with autism

Understanding the unique educational needs of young children with autism is essential for fostering their development and ensuring they reach their full potential. The Early Start Denver Model (ESDM) is an evidence-based early intervention approach designed specifically for children aged 12 to 48 months with autism spectrum disorder (ASD). An integral part of implementing ESDM effectively is utilizing a comprehensive curriculum checklist that guides caregivers and educators in delivering targeted, developmentally appropriate activities. This article provides an in-depth overview of the ESDM curriculum checklist for young children with autism, highlighting its components, implementation strategies, and benefits.

What Is the Early Start Denver Model?

The Early Start Denver Model is a comprehensive early intervention approach that combines applied behavior analysis (ABA) principles with developmental and relationship-based strategies. Developed by Sally Rogers and Geraldine Dawson, ESDM emphasizes naturalistic teaching within play and everyday routines to promote social communication, cognitive skills, language development, and adaptive behaviors. Key features of ESDM include: - Individualized assessment to tailor interventions to each child's unique strengths and challenges. - Naturalistic teaching strategies embedded in typical daily activities. - Focus on social motivation to enhance engagement and learning. - Family involvement as active participants in intervention.

The Importance of a Curriculum Checklist in ESDM

A curriculum checklist serves as a vital tool for practitioners and caregivers to track developmental progress, ensure consistency in intervention strategies, and identify areas requiring additional focus. It functions as a roadmap that aligns activities with developmental milestones, making it easier to plan, implement, and evaluate intervention efforts. Advantages include: - Providing structured guidance for activities. - Facilitating data collection to monitor progress. - Ensuring comprehensive coverage of developmental domains. - Supporting individualized goal setting.

Components of the ESDM Curriculum Checklist

The ESDM curriculum checklist encompasses multiple developmental domains, each tailored to the needs of young children with autism. These domains include social skills,

communication, cognitive development, motor skills, and adaptive behaviors.

1. Social Skills

Focuses on building foundational social interactions, such as: - Eye contact - Sharing attention - Initiating and responding to social interactions - Turn-taking - Joint attention behaviors

Sample checklist items:

1. Child can make eye contact during interactions.
2. Child responds to name when called.
3. Child shows interest in others' activities.
4. Child participates in turn-taking games.
5. Child demonstrates joint attention (e.g., pointing or showing objects).

2. Communication Skills

Addresses both verbal and non-verbal communication development, including: - Use of gestures - Babbling and vocalizations - First words - Requesting and commenting - Use of augmentative communication if applicable Sample checklist items:

1. Child uses gestures (e.g., waving, pointing) appropriately.
2. Child makes vocalizations to communicate needs or interests.
3. Child attempts to imitate sounds or words.
4. Child uses simple words or phrases to express wants.
5. Child responds appropriately to simple questions.

2. Child imitates simple actions demonstrated by adults.
3. Child engages in cause-and-effect play (e.g., pressing a button to produce sound).
4. Child sorts objects by color or shape.
5. Child completes simple puzzles.

4. Motor Skills

Covers gross and fine motor development: - Sitting, crawling, walking - Hand-eye coordination - Manipulating objects - Clapping, waving - Using utensils Sample checklist items:

1. Child demonstrates age-appropriate gross motor skills (sitting, walking).
2. Child shows fine motor skills such as picking up small objects.
3. Child engages in hand-eye coordination activities.
4. Child participates in simple motor imitation games.

5. Child uses utensils appropriately during mealtime.

5. Adaptive and Daily Living Skills

Focuses on independence and self-care: - Dressing and undressing - Feeding - Toilet training - Hygiene routines - Play skills Sample checklist items:

1. Child demonstrates ability to dress and undress with minimal assistance.

5. Child engages in appropriate play activities independently.

Implementing the ESDM Curriculum Checklist

Effective use of the curriculum checklist requires strategic planning and consistent application. Here are steps to optimize implementation:

1. Conduct a Comprehensive Assessment

Begin with an initial evaluation to identify the child's current developmental level across the different domains. This assessment helps in customizing activities and setting realistic goals.

2. Set Individualized Goals

Based on assessment results, establish specific, measurable, achievable, relevant, and time-bound (SMART) goals aligned with the checklist items.

3. Plan Naturalistic Activities

Integrate teaching moments into daily routines and play activities. For example: - During snack time, encourage requesting and commenting. - During play, model imitation and turn-taking.

4. Use the Checklist as a Guide

Regularly review the checklist to ensure all areas are addressed. Mark progress and identify areas needing additional focus.

5. Collect Data and Monitor Progress

Document children's responses and behaviors during activities. Use this data to adjust strategies and celebrate milestones.

6. Involve Families

Engage parents and caregivers by sharing the checklist and progress reports. Training families to implement strategies at home enhances consistency and generalization of skills.
